Experience

2023/10 – 2023/12

Co-Creator, Software Engineer

Laridae (<https://laridae-migrations.github.io/>) [🔗](#)

Laridae is an open-source tool offering reversible, zero-downtime schema migrations for PostgreSQL

- Utilized PostgreSQL views, triggers, and connection control functions to allow multiple application versions expecting different schemas to simultaneously use the same database.
- Worked strategically with PostgreSQL's concurrency control to avoid application downtime during migrations.
- Provided integration of schema migration functionality into CI/CD pipelines on GitHub Actions for AWS Fargate Deployments.
- Load tested application by performing migrations on databases of up to 10 million rows with simulated traffic.
- Collaborated with a remote team of 3 engineers across the US.
- Authored comprehensive technical case study, available at <https://laridae-migrations.github.io/case-study>. [🔗](#)

Projects

Ramanujan's Theorem, CA numbers, and the Riemann Hypothesis

- Wrote C++ and Python code for a computational number theory research project with a professional mathematician.
- Performed computations on colossally abundant numbers of size up to 10^{10^8} .
- Learned and utilized a C++ library for arbitrary precision interval arithmetic.
- Modified an existing algorithm for computing colossally abundant numbers to improve its efficiency.
- Co-authored a forthcoming paper describing our code and results.

Skills

Back-end

Node.js, Express, Ruby, Go, Python, C++, PostgreSQL, MongoDB, REST APIs

Front-end

JavaScript, TypeScript, HTML, CSS, React/Redux, jQuery

Other

Git/GitHub, Docker, Nginx, Amazon Web Services, Object Oriented Programming, Linux, Bash

Education

2019/08 – 2023/05

Bachelor of Science, Mathematics and Bachelor of Arts, Linguistics

University of North Carolina at Chapel Hill

- Graduated with highest honors and a 3.978 GPA.
- Completed multiple graduate level courses in mathematics.

2022/12 – 2023/01

Launch School

Multi-year, mastery-based software engineering curriculum. Read more at launchschool.com/employers [🔗](#).
